

D-8 Sun Protection

NQS

QA. 2.1	Health.
QA. 2.2	Safety.
QA. 3.1	Design.
QA. 3.1.1	Fit for purpose.
QA. 6.1.1	Engagement with the service.
QA. 6.1.3	Families are supported.
QA. 7.1.2	Management systems.

National Regulations

Reg. 100	Risk assessment must be conducted before excursion
Reg. 114	Outdoor space—shade
Reg. 160	Child enrolment records to be kept by approved provider and family day care educator
Reg. 161	Authorisations to be kept in enrolment record
Reg. 162	Health information to be kept in enrolment record
Reg. 168	Education and care service must have policies and procedures
Reg. 171	Policies and procedures to be kept available

My Time, Our Place

LO. 1	Children feel safe, secure and supported
LO. 3	Children have a strong sense of wellbeing
	Children take increasing responsibility for their own health and physical wellbeing
LO. 4	Children transfer and adapt what they have learned from one context to another

Policy Statement

We aim to ensure that all children attending the Centre will be protected from harmful rays of the sun, whilst understanding that Vitamin D, sourced from the sun, is an important factor in keeping bones and muscles strong and healthy. Educators will model appropriate sun protection behaviour and enforce the Sun Protection Policy at all times. Parents and families will be informed of the Centre's policy on Sun Protection through posters, newsletters and the Family Handbook.

Related Policies

- NORMANHURST WEST OSHC Policy A-10: Acceptance and Refusal of Authorisations
- NORMANHURST WEST OSHC Policy A-19: Nominated Supervisor
- NORMANHURST WEST OSHC Policy D-15: Allergies
- NORMANHURST WEST OSHC Policy E-2: Written Programs

Procedure

Children and Educators will wear protective clothing when outside such as hats that protect their face, ears and neck, and be encouraged to wear shirts that cover their shoulders and necks. Bucket hats and broad brimmed hats are recommended. Baseball caps and visors are not recommended.

Educators will direct children to wear hats for outdoor play. Children who do not have a hat must play in a sheltered area. Educators will enforce the 'No Hat - No Sun Play' rule.

Children will not share hats. Children are responsible for storing their own hats in their own school bags.

Sunglasses are recognised as an important factor in the protection of our eyes from the sun's rays. Sunglasses will be encouraged for all Educators and students during operation of the service.

An SPF 50+, broad spectrum, water resistant sunscreen will be made available in the Centre. When the UV is predicted to be 3 or above, parents will be expected to have applied sunscreen to their child prior to arriving to school, and Educators will assist children in reapplying sunscreen prior to leaving Before School Care. At the commencement of the After School Care Session when the UV is 3 or above, children will be required to apply sunscreen prior to going outside to play. Whilst the UV Forecast is 2 or below, children will not be required to apply sunscreen at the centre.

All sun protection practices will be maintained on excursions, including walking to and from the centre, where applicable. Sun protection will be included in the risk assessment for excursions.

The Sun Protection Policy will be available to all families using the Centre and parents will be informed of the policy upon enrolling their child through the parent handbook. Permission to apply sunscreen will be included as part of the enrolment process. The Director will respect the parents' right to refuse authorisation to apply sunscreen. In these instances, the Director will communicate with the parent regards providing an alternate suitable sunscreen. Should the parents refuse, the children will be required to wear appropriate clothing and play in shaded areas.

Where children have allergies or sensitivity to sunscreen, parents will be required to provide an alternative sunscreen, and/or the child required to play in the sheltered areas.

The Centre will incorporate sun and skin protection awareness activities in the program (see E-2 Written Programs Policy) and provide notices and posters about the topic throughout the Centre. Activities will be planned to minimise exposure to the sun when the UV is 3 or above. Outdoor activities will be held in shaded areas whenever possible.

The Centre will identify shade options at various times of the day and the year with the available outdoor space and promote these to the children. Educators will set up activities and play spaces to make best use of the shade.

Where shade is considered inadequate, Management and/or Normanhurst West Public School should be approached to provide additional shade cover.

Educators will use opportunities to discuss sun protection with children and demonstrate a positive and proactive approach to the management of the sun protection in the Centre.
