

E-7 Water Safety

NQS

QA. 2.1	Health.
QA. 2.1.2	Health practices and procedures.
QA. 2.2	Safety.
QA. 2.2.1	Supervision.
QA. 4.1	Staffing arrangements.
QA. 4.1.1	Organisation of educators.
QA. 7.1.2	Management systems.
QA. 7.1.3	Roles and responsibilities.

National Regulations

Reg. 77	Health, hygiene and safe food practices.
Reg. 78	Food and beverages.
Reg. 100	Risk assessment must be conducted before excursion.
Reg. 101	Conduct of risk assessment for excursion.
Reg. 102	Authorisation for excursions.
Reg. 168	Education and care service must have policies and procedures.

My Time, Our Place

LO. 1	Children feel safe, secure, and supported
LO. 3	Children take increasing responsibility for their own health and physical wellbeing

Policy Statement

We recognise that the safety of children is paramount when in or around water. We will ensure that children are supervised at all times especially during water play, excursions and around hot water. We will ensure that the appropriate hygiene policies are followed in relation to all drinking water provided at the Centre.

Procedure

Children will be provided with clean, fresh drinking water at all times. This will be monitored to ensure that it is hygienic and safe for consumption. The water will be served from containers which will remain securely sealed at all times and always emptied and cleaned thoroughly at the end of each day.

All hot water accessible to children must be no higher than 43.5°C. Any kitchen appliances used to heat water will be kept in an area not accessible to children. It is the responsibility of the Nominated Supervisor to ensure this is maintained and serviced regularly.

Educators will ensure all hot drinks are consumed away from the children and outside centre opening hours.

During the daily grounds check, educators will ensure no pools or containers of water are present and in the case of extreme rain, educators will thoroughly inspect outdoor areas for any pooling of water before allowing children to play outside.

All buckets of water will be emptied immediately after use and no full buckets will be left in the children's play area. All water play involving water containers or troughs will be directly supervised at all times and emptied on to garden areas immediately after use. Children will be discouraged from drinking this water during play.

Educators will ensure that all water carrying vessels that can reasonably present a drowning hazard for children are stored in a manner so as to prevent inadvertently collecting water and causing a drowning risk to children.

All grey water or rain tanks will be clearly labelled "Do Not Drink" and all children playing in areas with water tanks located nearby will be monitored closely by educators to ensure that do not attempt to access the water supply.

Excursions that involve swimming or activities closely located to water will be planned to enable a educator child ratio of 1:5. Educators will ensure children are kept in sight at all times. Parents will be asked to consent to the swimming capabilities of their child and any child who is deemed not competent will not be allowed to swim. A risk assessment will be conducted prior to any excursions, including any in or around bodies of water.
